

PVC / URETHANE BLEND SPRAY HOSE

RIBBED COVER

ENGINEERED FOR USE WITH LIQUID AROMATIC HYDROCARBON BASED CHEMICALS

RECOMMENDED FOR: Agricultural spraying, commercial weed & pest control spraying, transfer of aromatic hydrocarbon based chemicals (i.e. xylene).

FEATURES:

- Lightweight and flexible
- Excellent abrasion resistance
- 3 pressure ratings: 200, 600, 800 PSI
- Cover pin-pricked to vent vapour and prevent ballooning
- Cover colour coded for safety

TEMP. RANGE: -10°C (15°F) to 70°C (160°F)

AG-SPRAY 200

E.V.A. WEED SPRAY HOSE

SERIES: AG-03

In addition to the agricultural spray hoses, we offer an E.V.A. (Ethyl Vinyl Acetate) weed spray hose with a working pressure of 250 P.S.I. It is made of a non-toxic compound of V.A. in polyethylene. This hose can be used for Monsanto's Pesticide, "lasso", anhydrous ammonia applications and for conveying beverages.

COLOUR: Clear

REINFORCEMENT: Polyester Yarn

PART NUMBER	SIZE I.D.	O.D.	WORKING PRESSURE @ 72°F	WEIGHT LBS / 100'	STANDARD PACKAGE	LIST PRICE \$ PER FT.
